

A Gibraltar broker for the world's markets.

Welcome to Landmark Capital LP.

A NOTE FROM THE FIRM

Built in Gibraltar. Trusted worldwide.

Landmark Capital LP is a Gibraltar-regulated brokerage serving private investors, family offices and self-directed clients across the United Kingdom and Europe who want direct access to global equities, fixed income and primary market allocations — without the friction of legacy institutions.

Our roots are European. From London and Edinburgh to Dublin, Frankfurt and Zurich, clients trade UK, European and US markets on one platform, backed by Gibraltar FSC oversight and institutional-grade custody.

This brochure introduces the firm, our services, and what it means to hold an account with us.

From a jurisdiction that rewards discipline.

Long-term focus. Real assets. Compounded returns.

WHAT OUR CLIENTS SAY

Results, quietly compounded.

“

Our family office finally has a single Gibraltar broker that can actually deliver a US IPO allocation. The SpaceX secondary tranche paid for the relationship on its own.

Private Client · Family Office

“

The Airbnb allocation in 2020 was the first IPO I'd ever been given by a broker. Held to today it's the single best position in my portfolio.

SIPP Trustee

“

What I care about is that when I send a wire, it moves, and when I ask for a statement, it's accurate. Landmark does both without drama.

Great brokers do not sell products. They give patient investors access to opportunities they would not otherwise see — and get out of the way.
